Histoires naturelles collection

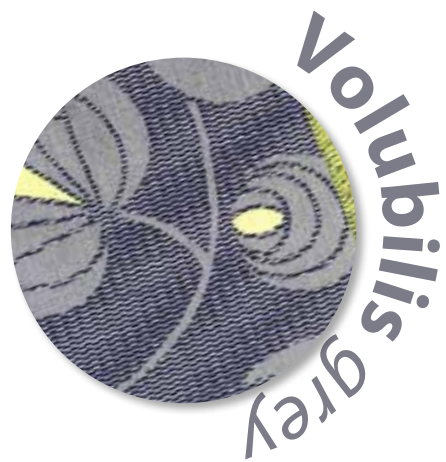

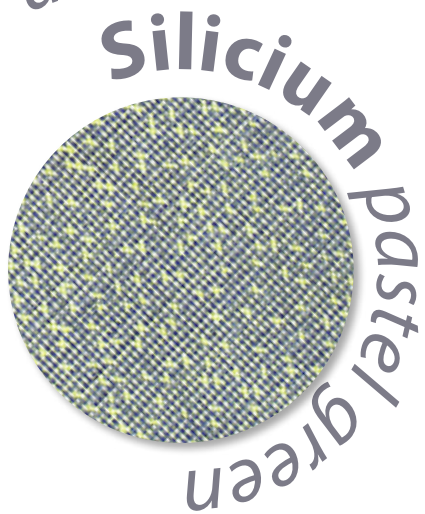

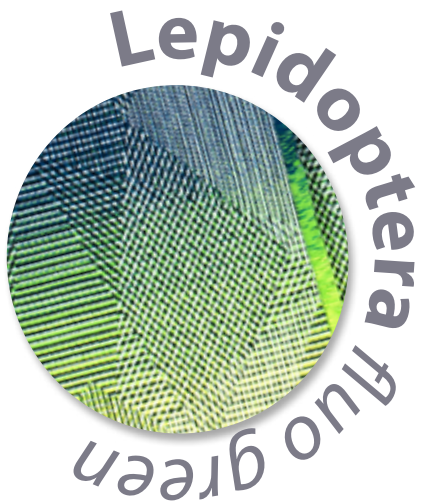

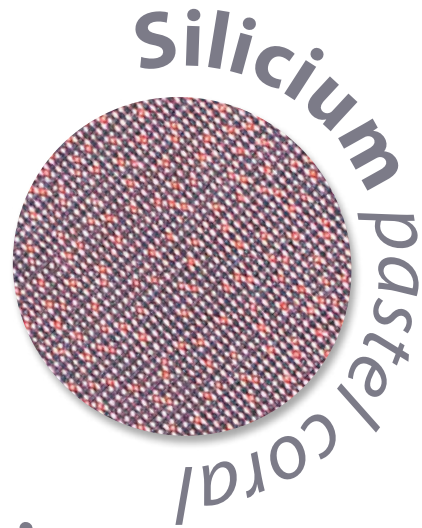

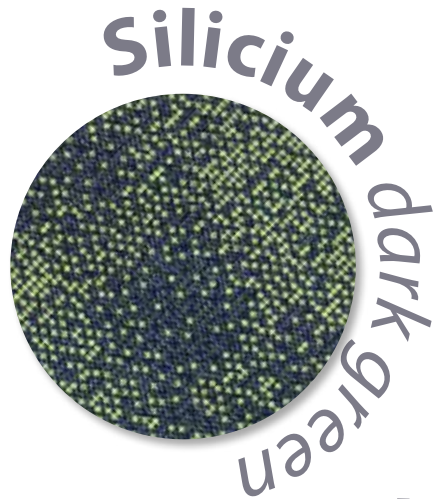

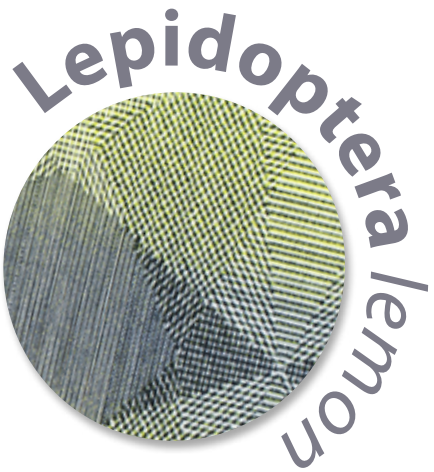

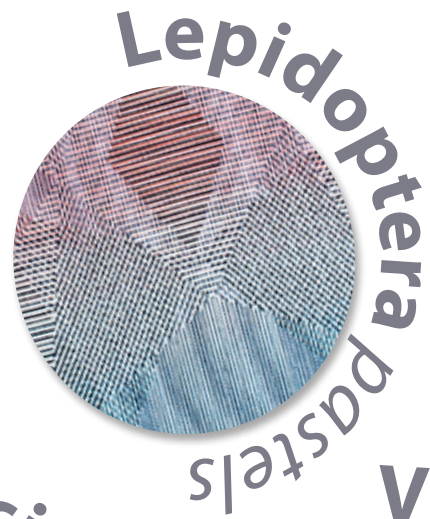

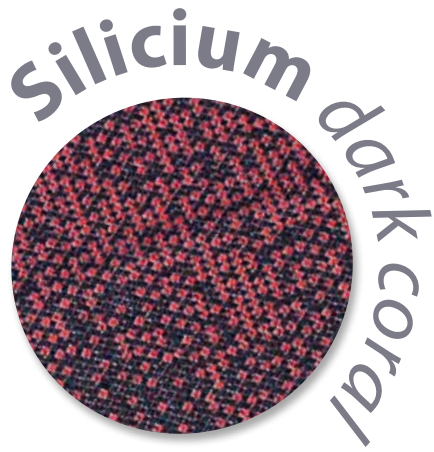

The Belgian textile studio **NoMoreTwist** has created a new, *100% made in Belgium*, collection of throws and cushions called '**Histoires naturelles**'. The collection has three themes - **Silicium**, **Lepidoptera** and **Volubilis** - in turn evoking the mineral, animal and plant world. The pattern contribute to differences in scale as well as the contrast between figurative exuberance and rigorous abstraction, offering a multitude of harmonious combinations.

The **Silicium** pattern is created by the layout of faceted micro-structures whose complex architecture alludes to the mineral world of crystals.

Designed entirely from circular arcs, **Volubilis** pays tribute to the hidden geometry of the plant world, the aerial oscillation of twining plant stems.

The changing surface of **Lepidoptera** evokes the moiré effect of butterfly wings thanks to a daring fusion of colour gradation with superimposed lines.

The 3 themes are available in 2 ranges of vivid colours inspired by the stunning work of engraver Ernst Haeckel, a big name in 19th century naturalist illustration. There is a range of throws and cushions in different shapes and sizes, including a large floor cushion. The products are fashioned from woven jacquard in fine quality wool and silk.

Silicium *green*

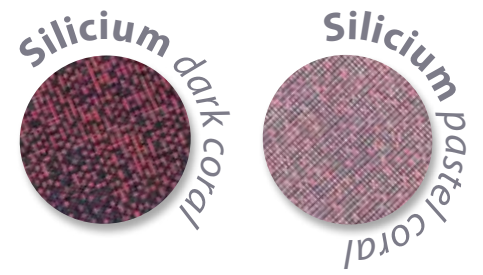

- 1- Silicium / pastel green - Cushion 43 x 43 cm - front side: wool 95% silk 5% back side: light grey linen 100% - Advised retail price: 70€ incl.VAT
